FESTDASH

SELL TO YOUR WHOLE TOWN · DELIVERED · THE GAMBIA

HOW IT WORKS

1. **Scan the code and create your free account.**
   Email or Google. It takes a minute and brings you straight to the shop set-up page, already linked to Gee.

2. **Tell us about your shop.**
   What you sell, your area, your WhatsApp number, and the wallet where you want your money paid (Wave, QMoney or Afrimoney).

3. **Your coordinator confirms you.**
   They visit, answer your questions, and collect the first month's listing fee. NorthEDM approves your shop.

4. **Add your items.**
   A photo and a price in dalasi for each. Your shop goes live on FestDash.

5. **Customers order, a runner delivers, you get paid.**
   People nearby order on the website or by WhatsApp and pay by Wave, QMoney, Afrimoney or cash on delivery. You hand over with a 4-digit code and keep 80% of every sale.

WHAT IT COSTS · WHAT YOU EARN

Listing fee	US$30 a month, paid in dalasi to your coordinator. No fee, no listing — stop any time.
Each sale	**You keep 80%.** 10% to your coordinator, 10% to NorthEDM.
Payouts	Your coordinator sends your share to the wallet you chose, on the schedule you agree with them.

northedm.com · FestDash™ and FestEats™ are services of NorthEDM LLC. Transfer times are set by each payment provider, not by FestDash or NorthEDM, and can vary; an order starts once your coordinator sees the money in their wallet. Your coordinator collects fees and payments locally and pays you your share; keep your transaction references.
